Eduardo Palhares

Software Developer | Node.js • Python
Cotia, São Paulo, Brazil

Summary

League of Legends as a hobby. Basketball as sport and Software Developer as career.

Hi there! My name is Eduardo Palhares, and I'm a passionate developer with extensive knowledge in Javascript, Typescript, and Python. I specialize in developing systems, services, and APIs using various stacks, including PostgreSQL, Redis, Express, NestJs, and GraphQL.

I'm particularly adept at solving complex problems and enjoy working with Typescript, GraphQL, Nest, and Docker. My goal is to always deliver clean, efficient, and scalable code, and I'm committed to continuously learning and growing as a developer.

Thank you for taking the time to learn more about me and my work. I'm excited about the prospect of connecting with other professionals in the industry and contributing my skills to tackle complex problems.

Experience

Raízs

Software Developer

September 2019 - Present (3 years 8 months)

São Paulo e Região, Brasil

Raízs is a company that unifies family organic farmers and conscious consumers.

I design and develop the architecture for the services supporting all aspects of the company's processes, including the UI, backend services, and 3rd party APIs.

Belga.io

Software Developer

January 2019 - September 2019 (9 months)

São Paulo e Região, Brasil

Belga.io is a crypto arbitrage company.

I designed and developed the architecture for the services supporting all aspects of the arbitration bot, including crypto price analysis, arbitration registrations, and 3rd party APIs.

Education

ETEC - Escola Técnica Estadual de São Paulo

Técnico em Informática , Tecnologia da Informação · (2018 - 2019)
